- Windows 11 Version 20H2 for ARM64-based Systems
- Windows 11 Version x64-bit
- Windows 8 x32 bit
- Windows 8 x64 bit

3. Click on each Update to download it

4 Once downloaded, click on the file to activate the update in your PC

5. The program will install the update

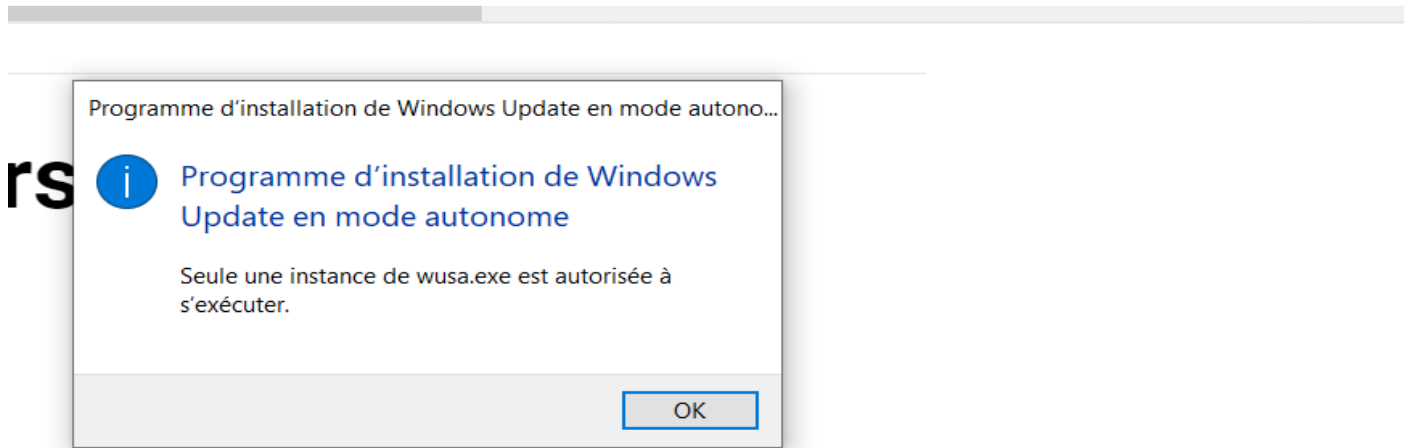

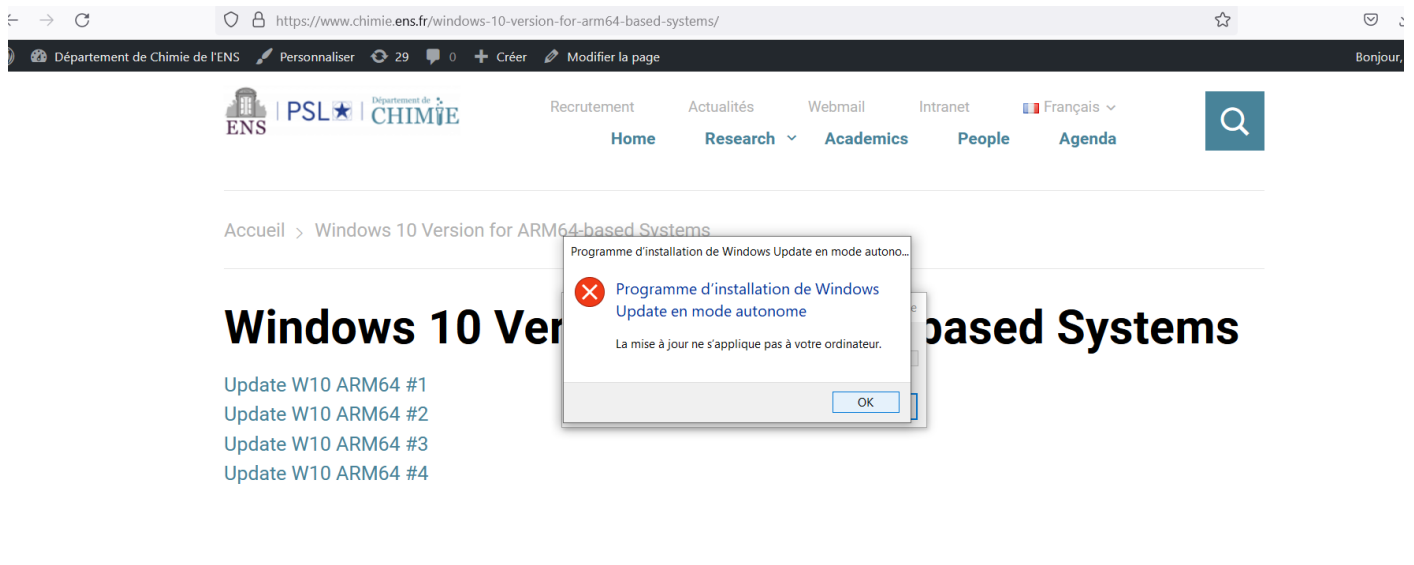

The screenshot shows a web browser window with the URL <https://www.chimie.ens.fr/windows-10-version-for-arm64-based-systems/>. The page header includes the ENS logo and navigation links: Recrutement, Actualités, Webmail, Intranet, Français, Home, Research, Academics, People, and Agenda. The breadcrumb trail reads "Accueil > Windows 10 Version for ARM64-based Systems". The main heading is "Windows 10 Version for ARM64-based System". Below it, there are four links: "Update W10 ARM64 #1", "Update W10 ARM64 #2", "Update W10 ARM64 #3", and "Update W10 ARM64 #4". A Windows Update dialog box is overlaid on the page, titled "Programme d'installation de Windows Update en mode autonome". It displays "Recherche de mises à jour sur cet ordinateur..." with a green progress bar and an "Annuler" button.

5.1 If the update was already installed, your PC will display this message

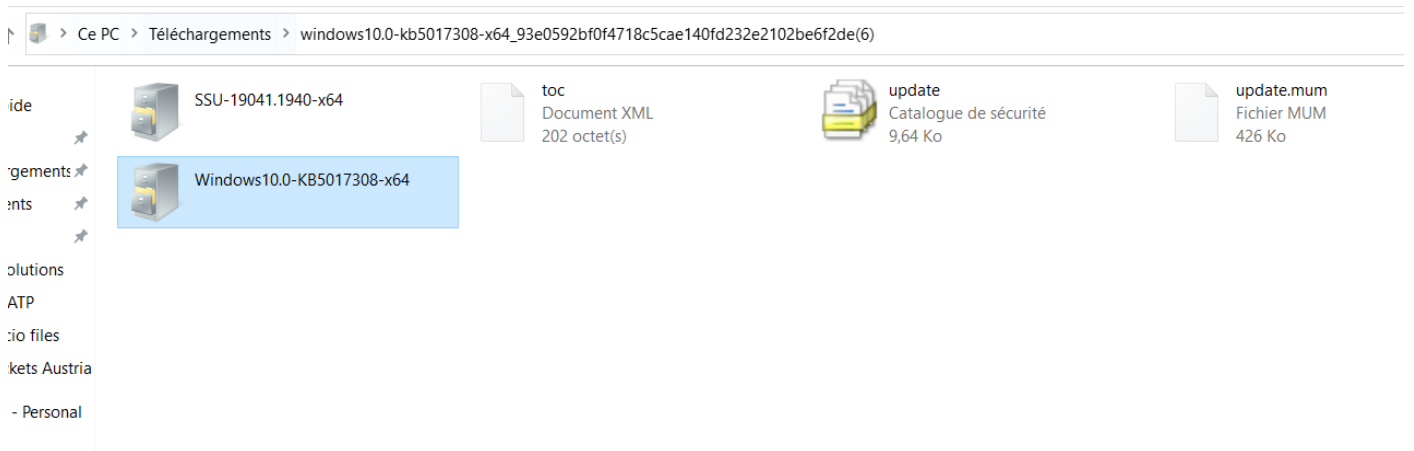

The screenshot shows the same web browser window as above. The Windows Update dialog box is overlaid, displaying a yellow warning triangle icon. The text in the dialog box reads: "Programme d'installation de Windows Update en mode autonome", "Programme d'installation de Windows Update en mode autonome", and "Mise à jour de sécurité pour Windows (KB5017308) est déjà installé sur cet ordinateur." There is an "OK" button at the bottom right of the dialog box.

5.2 If you apply updates that do not match your computer's version the message will be 'La mise à jour ne s'applique pas à votre ordinateur' ' or 'Seule une instance de 'X' est autorisée a s'executer'

5.3 Observation:

Some updates do not run any process, they are just downloaded and remain as an add-on in your PC
